SUMMERY

- **UI/UX designer and UI developer** with over **4+ years of experience** in designing enterprise SaaS based applications, AI-driven and data-intensive dashboards, web applications, and **scalable design systems.**
- Strong hands-on experience with **Figma, AI-assisted design workflow, Claude Code, Figma MCP, prototyping, design systems**, **design-to-development workflow**, **HTML5, CSS3,** and **Bootstrap 5**, with a focus on improving design and development efficiency.
- Strong Understanding of **UI/UX, interface design, user flow, responsive design, usability testing, typography, information architecture, Color theory, WCAG 2.1/2.2** and comfortable collaborating with **designers, developers, product teams, and Stakeholders** to gather requirements and implement design into pixel-perfect code across mobile, tablet, and desktop.

SKILL'S

- **UX Design:** UX Design, Information Architecture, User Flows, Interaction Design, Wireframing, Prototyping, User Journey Mapping.
- **UX Research:** UX Research, User Interviews, Usability Testing, Stakeholder Interviews, Competitive Analysis, Qualitative & Quantitative Research.
- **UI Design:** UI Design, Visual Design, Responsive Design, Typography, Color Theory, Component Design, Accessibility (WCAG 2.1/2.2), Visual Hierarchy.
- **Design Systems:** Design System, Design Tokens, Component Libraries, UI Patterns, Variants & Properties, Design System Governance.
- **UI Development:** HTML5, CSS3, Bootstrap 5, Responsive Web Development, Git & Version Control
- **Tools & AI:** Figma, Adobe XD, ChatGPT, GitHub Copilot, Figma AI, Claude

WORK EXPERIENCE

UI UX Designer & UI Developer - Infoneo Technologies Pvt Ltd: **Nov 2024 – March 2026**

- Designed **5+ enterprise SaaS dashboards** for complex workflows, translating business needs into wireframes, prototypes and final UI designs.
- Collaborated with stakeholders, product teams, and developers to understand requirements through interviews and usability testing.
- Built and expanded a design system for enterprise SaaS applications, creating design tokens, reusable components and UI patterns and variants that improve design consistency and developer collaboration while reducing product delivery time by **20%**.
- Built responsive UI components using HTML5, CSS3, Bootstrap5, and checked the design against WCAG 2.1/2.2 guidelines for desktop, tablet, and mobile.

UI UX Designer & UI Developer - UnifiedCloud Pvt Ltd: Dec 2021 - Sep 2024

- Reviewed and redesigned **10+ Outdated enterprise dashboards** to improve navigation, information hierarchy, usability of workflow, and clarity of tasks.
- Simplified key workflows and reorganised the interface, which led to a **30% increase** in user retention and a **15% decrease** in support tickets.
- Collaborated with a **cross-functional team of 50+ members** from product, engineering, and business departments through design reviews, Agile/Scrum meetings, and development handoff.
- Supported **frontend implementation** and **maintained consistency** by collaborating with developers during the final UI development to ensure it matched the approved design.

PROJECTS

Government & Public Sector Platforms

- Designed and developed interfaces for **government, institutional, and content-heavy** platforms including CIPAM, Milan Indian Navy, Bhavini, MyTravelTown, and GAIL Tender Management.
- Created **wireframes** and **prototypes** in Figma, translating complex content and business requirements into well-structured user experiences.
- Focused on information architecture, navigation, accessibility, responsive behavior, typography, visual hierarchy, and Cross-browser consistency.
- Worked closely with frontend and backend teams during development to support the implementation of the design.

Proptifi — Real Estate Platform

- Designed end-to-end experience for Proptifi across its **public website, user dashboard, and admin platform.**
- Worked across information architecture, user flows, interaction design, wireframes, typography, high-fidelity UI, and visual hierarchy for responsive layouts.
- Created reusable **UI components** and **design-system patterns** that could be used in different product modules.
- Collaborated with **product and backend teams** throughout development to clarify design decisions and address UI issues during implementation.

EDUCATION

B.Tech / B.E. **2020**
Raj Kumar Goel Institute of Technology, Ghaziabad
