Summary

- **UI UX Designer & UI Developer with 4+ years of experience** delivering enterprise SaaS dashboards, AI-powered dashboards, complex web applications, and **scalable design systems**.
- Solid hands-on experience in **UX research, stakeholder interviews, information architecture, user flows, wireframing, prototyping, usability testing, and interaction design**.
- Hands-on with **Figma, Adobe XD**, and **WCAG 2.1 & 2.2** accessibility standards, delivering responsive, pixel-perfect UI with **Angular UI, HTML5, CSS3, and Bootstrap 5** across **mobile, tablet, and desktop**.

SKILLS

- **UX Design:** UI/UX Design, User Experience Design, Information Architecture, User Flows, Requirements Analysis, Process Flows, Workflow Design
- **UX Research:** User Research, User Personas, User Journey Mapping, Journey Maps, Stakeholder Interviews, Usability Testing, Usability Reviews, Competitive Analysis, Card Sorting
- **UI Design:** UI Design, Interaction Design, Wireframing, Low-Fidelity Wireframes, High-Fidelity Designs, Mock-ups, Prototyping, Interactive Prototypes, Responsive Web Design
- **Design Systems:** Design Systems, Design Tokens, Design Standards, Reusable UI Patterns, Component Library, Reusable Components, Design Patterns, Design Governance, Design Consistency
- **Accessibility:** Accessibility, WCAG 2.1/2.2, WCAG 2.1 AA & AAA, Accessibility Standards, Responsive Behaviour, Cross-Browser Consistency
- **UI Development:** HTML5, CSS3, Bootstrap 5, Responsive Web Design, Angular UI, React.js UI, Design-to-Code, Design Handoff, Git & Version Control
- **Tools & AI:** Figma, Adobe XD, ChatGPT, GitHub Copilot, Figma AI, Claude

WORK EXPERIENCE

UI UX Designer & UI Developer – Infoneo Technologies Pvt Ltd:

Nov 2024 – March 2026

- Led the design of **5+ enterprise SaaS dashboards**, partnering with product, engineering, and backend teams to convert business requirements into **wireframes, prototypes, and final UI**.
- Built and scaled a **reusable design system** for enterprise SaaS products by creating consistent UI patterns and components, reducing design inconsistencies, improving developer collaboration, and cutting product delivery time by **25%**.
- Conducted UX discovery and validation activities, including **stakeholder interviews, usability testing, card sorting, and competitive analysis**, to understand user and workflow issues.
- Developed **pixel-perfect, responsive** UI components using **Angular, HTML5, CSS3, and Bootstrap 5**, and applied **WCAG 2.1 AA accessibility** principles across mobile, tablet, and desktop.

- Reviewed and redesigned **10+ legacy enterprise dashboards**, focusing on **navigation, information hierarchy, workflow usability, and task clarity**.
- Simplified key workflows and reorganised the interface, contributing to an **80% improvement in user retention** and a **15% reduction in support tickets**.
- Collaborated with a cross-functional team of **50+ members** across product, engineering, and business through design reviews, **Agile/Scrum ceremonies**, and development handoff.
- Supported frontend implementation and consistency by working with developers on **HTML5, CSS3, and Bootstrap 5**, ensuring alignment between approved designs and the final product.

PROJECTS

Government & Public Sector Digital Platforms

- Designed responsive interfaces for **government, institutional, and content-heavy** platforms including *CIPAM, Milan Indian Navy, Bhavini, MyTravelTown, and GAIL Tender Management*.
- Created **wireframes and high-fidelity designs** in Figma, translating complex content and business requirements into clear, structured user experiences.
- Focused on **information architecture, navigation, accessibility, responsive behaviour, typography, visual hierarchy**, and **cross-browser consistency**.
- Collaborated during design handoff and implementation using **HTML5, CSS3, Bootstrap, React.js, and PHP**.

Proptifi – Real Estate Platform

- Designed the end-to-end experience for Proptifi across its **public website, user dashboard, and admin platform**.
- Worked on **information architecture, user flows, interaction design, wireframes, high-fidelity UI, typography**, and **visual hierarchy** for responsive layouts.
- Created **reusable UI components** and **design-system patterns** that could be used across different product modules.
- Partnered with product and backend teams during development to **clarify design decisions** and resolve UI issues during implementation.
